
Mish Tip #7: Compile a list of people who can help

On the top panel, click AdvancedUninstaller PRO. Then click Change in the top menu. After the program is started, press CTRL+F11 to activate the Uninstall manager. Close all applications to avoid any problems while uninstalling ACCA. When you start the program, you need to choose the option "Extract the file to a directory". Don't forget to choose a free directory. When the installation is finished, choose "Start".
